

Chain trolleys are moved to the left or right by pulling on the endless hand chain. Spacers allow a large adjustment range to many different beams. Thanks to their compact design, chain trolleys are also suitable for use in cramped conditions.

Load capacity: 1 to 25 t

Chain trolleys			
Load capacity in t	Lower flange width in mm	Max. lower flange thickness in mm	Weight in kg
3	100-203	40	31
3	74-220	25	35,4
3	160-305	40	40
5	114-203	42	46
5	114-305	42	55
10	124-350	22	95
10	125-310	40	104
16	155-320	65	220
18	200-302	45	220
20	136-305	30	244
