

The tubular design of the roofing hoists makes them very easy to install.

Load capacity: 300 kg, 500 kg

The ratio of the counterweight to the load must be 1:1. The counterweight is included in delivery of the 300-kg roofing hoist. The 500-kg roofing hoist can also be provided with suitable containers for the counterweights on request.

Roofing hoists					
Load capacity in kg	Wire rope length in m	Lifting speed in m/min	Wire rope diameter in mm	Total weight in kg	Voltage
300	30	18	5	65	230 V / 50 Hz
500	30	22	6	77	400 V / 50 Hz

Dimensions roofing hoists				
Load capacity in kg	A	A1	B	C
300	1.80	1.20	1.60	2.20
500	1.90	1.10	1.42	2.17
Dimensions in m
